PROFESSIONAL SUMMARY

Results-driven Product Owner / Business Analyst with **5+ years** delivering **ERP**, **BFSI** & **fintech** digital transformation. Certified **SAFe® 5 PO/PM**; end-to-end **Agile SDLC** — **product discovery**, **requirements elicitation**, **sprint delivery**, **User Acceptance Testing (UAT)** sign-off & **production deployment**. Deep **SME-level** domain expertise across **manufacturing ERP** (procurement, production, Order Management System (OMS), Warehouse Management System (WMS), QC & compliance) and **financial data systems** (AR, cash application, remittance processing, audit compliance).
Converts ambiguous business needs into precise **BRDs**, **FRDs**, **user stories** & **acceptance criteria**; leads **stakeholder management**, **cross-functional teams**, **business testing plans**, **compliance frameworks** reviews & **sprint retrospectives**. Skilled in **SME analysis**, **customer journey mapping**, **change management**, and **release planning**. Brings strong **professional writing** and **user-centric** product thinking with proven impact: **75% data accuracy uplift**, **50% AR turnaround reduction**, **35% sprint velocity boost**, **30% cost reduction**, **33% defect reduction**.

WORK EXPERIENCE

Product Owner / Business Analyst · Gemba Concepts Pvt. Ltd., Bengaluru *Dec 2025 – Present*

Products: Manufacturing ERP Stack: Anguler, Java, MS SQL.
Redis/BullMQ, shadcn/ui, AG Grid.

- **Requirements & ownership**: led **requirements elicitation** across **12+ ERP modules**; ran **business process workshops**, **as-is / to-be** mapping; authored 25,000+ line **BRD/FRD/FSD suite** with **requirements traceability matrix (RTM)**, **swimlane diagrams**, **use cases** & **RACI**; maintained **product backlog** in **JIRA** with **MoSCoW prioritisation**.
- **QC & Compliance module**: defined end-to-end **quality audit workflows**, **inspection checkpoints**, **compliance verification rules**, **audit trail logic**, **change-log capture** & **internal control** requirements across Procurement, Production & Inbound QC.
- **UAT & quality**: authored **test scripts** & **test plans**; conducted **system integration testing (SIT)**, **regression testing** & **UAT sign-off** across 12 surfaces; triaged 100+ defects via **bug triage** workflow; aligned **business testing plans** with QA teams; maintained **testing lifecycle** discipline throughout.
- **Incident & sprint management**: resolved high-complexity **product incidents** mid-sprint — **root cause analysis**, **change requests**, dev coordination & stakeholder comms; ran **sprint planning**, **daily standups**, **sprint reviews**, **sprint retrospectives**; tracked **burn-down charts** & **velocity** across 2 parallel ERP tracks.
- **Stakeholder & delivery**: primary liaison between MD (client), procurement, warehouse & dev; delivered **sprint demos** & **executive reporting**; translated **voice of customer (VoC)** feedback into **given/when/then** user stories; facilitated **governance meetings** & **workshop facilitation**; coordinated **people management** across QA, dev & business teams.
- **WMS design**: specified bin-level **warehouse management system (WMS)** — 3 warehouses, 67 racks, 2,500+ bins; authored data model, seed data & **traceability workflows** enabling full inventory audit visibility.

Product Owner · FIS Global, Pune / Remote *June 2021 – Sept 2025*

Domain: Cash Application & Accounts Receivable (AR) | Stack: AWS (Textract, S3, Microservices), Oracle DB, REST APIs, Power BI, JIRA / Confluence, Agile / SAFe.

- **Financial audit automation — Cash App relaunch**: architected migration from legacy OCR to **AWS Textract**; designed **event-driven microservice pipeline** (Textract → S3 → Oracle DB) with retry logic, **data validation**, **full audit trail compliance** & enhanced **reconciliation** controls. Led **product discovery**, **BRD/FSD**, **UAT**, **system integration testing (SIT)** & zero-downtime **production deployment**. Result: **75% data accuracy**, **30% cost reduction**, 25% faster processing.
- **AI AutoMatch Remittance Module**: owned **AR audit & reconciliation** product; defined **audit validation rules**, **AI/ML matching criteria**, KPIs & training datasets; led **UAT execution** & **regression testing** for 6 release cycles; ran **root cause analysis** on complex edge cases. Result: **50% reduction in AR audit cycle time**, 40–50% accuracy uplift, eliminated 3rd-party OCR dependency.
- **Internal controls & data frameworks**: defined **internal control requirements** & **data quality management** checks ensuring every extraction step produced **auditable outputs** traceable to source docs; applied **compliance frameworks** for downstream audit reviews; surfaced **exception monitoring** via **Power BI** dashboards & **SQL** for **audit KPI tracking** & **executive reporting**.
- **Agile delivery & product roadmap**: owned **backlog grooming**, **story points**, **definition of done (DoD)**, **OKR** alignment & **release planning**; improved **sprint velocity by 35%**; partnered with Scrum Master on **sprint ceremonies** & **continuous improvement**. Used **A/B testing**, **Mixpanel** & **Amplitude** for **product analytics**; deployed on **AWS S3 / Textract** with **application architecture** design, full **API integration**, **CI/CD** & **SDLC** governance.

- **MTS (Material Tracking System)**: defined **functional requirements**, **traceability workflows** & **validation rules** for end-to-end material visibility; coordinated **UAT sign-off** with QA & business teams.

KEY PROJECTS

Cash App — AWS Textract Migration / *FIS Global, 2022–23*	Legacy OCR → **event-driven pipeline**; led **BRD/FSD, UAT, SIT**, zero-downtime deploy. Result: **75% accuracy, 30% cost reduction**, full audit trail.
AI AutoMatch Remittance Module / *FIS Global, 2023–25*	**AI/ML matching** with **audit validation rules**; owned 6 UAT release cycles. Result: **50% AR cycle time reduction**, 40–50% accuracy uplift.
CamelBots ERP — Heeraji Fashion / *Gemba, Dec 2025–*	25,000+ line **FRD/BRD suite** (12 modules); WMS: 3 warehouses / 2,500+ bins; **QC & Compliance module** with real-time audit workflows & end-to-end **traceability**.
Manufacturing ERP — Tube Division / *Gemba, 2026*	**Gap analysis** (QC FRD v2 vs v3), **as-is/to-be** maps, **RTM** update & UAT coordination; enabled **audit-ready** QC workflows across production & dispatch.
